CRP Pollinator Mix

This bare-bones prairie mix is our most economical grass and wildflower mix and meets NRCS specifications for several pollinator and wildlife habitat conservation programs in Michigan. The selected wildflowers will bloom throughout the growing season and provide diverse food and habitat resources for pollinator insects and other wildlife. CRP programs do not specify nurse crop, but it can be added.

Total Seeding Rate: 4 lbs per acre
2 lbs grasses • 2 lbs forbs
37 native seeds per sq ft

Call, email or visit our website for pricing.

Grasses		PLS Oz/acre
