## Solar Shortgrass Mix

This mix while not purely native, has enough diversity to handle shade and sun in a dry-mesic environment surrounding a solar array. With Sheep Fescue as its base, it can provide a low maintenance, low profile habitat as the solar panels soak up the sun.

Total Seeding Rate: 32.03 lbs per acre

4.03 lbs grasses • 3 lbs forbs • 25 lbs nurse crop

84 fescue & native seeds per sq ft

Call, email or visit our website for pricing.
