## Dry-Mesic Pollinator Mix

Endorsed by The Xerces Society for Invertebrate Conservation, this prairie mix provides attractive blooms of pollinator preferred forage and nectar sources throughout the entire growing season. The grasses and wildflowers also provide diverse habitat resources for a wide range of other beneficial insects. This mix is well-suited for dry to mesic soils and mixed light conditions, making it ideal for the addition of native trees and shrubs once established.

Total Seeding Rate: 31 lbs per acre  
 2.25 lbs grasses • 3.75 lbs forbs • 25 lbs nurse crop  
 55 native seeds per sq ft

Call, email or visit our website for pricing.
