Slope Stabilization Mix

An inexpensive mix designed to quickly and aggressively establish on disturbed slopes prone to erosion. While the species diversity is limited, the heavy nurse crop and relatively high native seed count ensure vigorous establishment. This mix is designed for medium to dry soils and will establish through erosion control blankets.

Total Seeding Rate: 46.69 lbs per acre
 6.69 lbs grasses • 40 lbs nurse crop
 71 native seeds per sq ft

Call, email or visit our website for pricing.

Grasses, Sedges & Rushes		PLS Oz/acre	Seeds/sq ft
